

Student Aeronautical Event Sweden

Västervik – June 12, 2025

An annual event organized by university aero teams from **Chalmers, KTH and LiU**, in collaboration with **Västervik Drone Science Park**.

The purpose of the event is to strengthen the **national network** among universities, companies and the **aerospace industry**, while generating student interest.

Each university will showcase their **aircraft**, their **achievements** over the past year and their **vision for the future of student aeronautics**. The teams will participate in various competitions, therefore each aircraft will be designed with different aspects in mind.

By inviting companies to the event, we hope to initiate a dialogue and establish a symbiotic relationship between the aero teams and the industry.

Reserve your seat and come fly with us!

Agenda June 2025

Wednesday June 11

19:00 **Dinner (optional)**

Thursday June 12

Presentations

- 09:00 Arrival to the airfield
- 10:00 Welcome presentation
- 10:15 **Västervik Drone Science Park**
- 10:30 SARC
- 10:40 **Student Aeronautical Event Sweden**
- 10:50 Break
- 11:10 **Chalmers Aero Team**
